The Soul Throne Chronicles - Book IV: Temple of the Onyx Serpent

But if he does not understand him completely, then of course it is always possible that the most indisputable thing could still have a completely different explanation that would, note well, be the true explanation, since an assumption can indeed explain a great number of instances very well and thereby confirm its truth and yet show itself to be untrue as soon as the instance comes along that it cannot explain-and it would indeed be possible that this instance or this somewhat more precise specification could come even at the last moment. Unlike the conventional image segmentation problems dealing with surface-wise decomposition, the depth-wise segmentation is a problem of slicing an image containing 3D objects in a depth-wise sequence.
